

2012 \$5 Quilt Club
thread chart for center blocks.

With each pattern you will have the photo of the block which will include the embroidery design that we placed in the block.

The blocks are listed by name below. The thread colors are given in Isacord numbers in order used in each block.

The dark brown(1346) is always the outline stitch. If you happen to get thread colors in a different order, there is no problem. No one will ever know!

On the CD blocks are given by name. I used my hoop 160 x 300 and stitched two blocks at a time. I cut my fabric 6" wide and used Perfect Stick stabilizer, then floated a medium tear away stabilizer. You can get 6 designs on one strip of fabric. One design will fit in the 4 x 4 hoop.
